

# Cássio Batista Pereira

---

Brazilian, 37 years old (17/10/1987)

Living in Crakow, Poland

Cell phone: (+55 11) 999 430 820 (+48) 534 320 228

E-mail: [cassio@cassiobp.com.br](mailto:cassio@cassiobp.com.br)

Social media: <http://linktr.ee/cassiodeveloper>

## Objective

Cyber Security – Lead / Manager Application Security and or DevSecOps

## Pos Graduation / MBA

Specialization in Computer Forensics.  
Mackenzie University.

MBA on Development of Software Architectures.  
F.I.A.P. Paulista School of Informatics and Administration.

## Graduation

Technology in Analysis and Software Development (TADS).  
F.I.A.P. Paulista School of Informatics and Administration.

## Education

2006/2007 – Computer Technician (Barão de Mauá High School).

## Certification

MCSD – Microsoft Certified Solutions Developer - Web

- Microsoft® Certified Developing Windows Azure and Web Services
- Microsoft® Certified Developing ASP.NET 4.5 MVC Web Applications
- Microsoft® Certified Programming in HTML5 with JavaScript and CSS3
- Microsoft® Certified Programming in C#

ACE – AccessData Certified Examiner

## Idioms

Portuguese - Native

English fluent - (reading, writing e conversation)

Advanced Spanish - (reading, writing e conversation)

Basic Polish - (started on my own)

## Profile summary

With twenty years of experience in the software development area with focus on development and architecture, aligned with best practices of secure development, I worked on several projects using the most varied technologies and frameworks. Then, I decided to migrate once and for all to cybersecurity to work on projects with an even greater focus on application security. Since then, I have been focused on helping companies keep their software increasingly secure by following various market practices and frameworks and practices, such as: ISO, OWASP SAAM, SDLC, DevSecOps etc, to ensure the quality and integrity of the software as well as protect against threats, without impacting the business through well-defined and automated processes.

## Professional Experience

**11/2024 – Current**                      **StoneX**                      **Crakow – Poland**  
Principal Cyber Security Engineer

- Application Security Evangelist, responsible for evangelizing the AppSec culture, KPI development, Security Champions Program implementation.
- Team of ~1000 developers globally.
- Application Security discussions.
- Vulnerability analysis, code review and correction suggestion (C#).
- Taking care of the whole Security Champion Program.

**02/2024 – 10/2024**                      **Backbase**                      **Crakow – Poland**  
Principal Cyber Security Engineer

- Lead of the Application Security / DevSecOps team for Backbase banking product for the Managed Services customers, responsible for evangelizing the AppSec culture, KPI development, Security Champions Program implementation.
- Team of ~500 developers spread in 7 different countries.
- Application Security discussions.
- Vulnerability analysis, code review and correction suggestion (Java).
- Taking care of the whole SSDLC process level of Managed Services Team.

**01/2022 – 01/2024**                      **ABB Business Services Sp. z o.o.**                      **Crakow – Poland**  
Principal Cyber Security Engineer

- Direct leader of the Application Security / DevSecOps and Security Architecture team for a specific product, responsible for evangelizing the AppSec culture, KPI development, Security Champions Program implementation.
- Team of ~500 developers spread in 7 different countries.
- Security Architecture discussions.
- Vulnerability analysis, code review and correction suggestion (C# and JS mainly).
- Taking care of the whole SSDLC process level of Process Automation division.

**04/2020 – current**                      **Nova8**                      **Barueri – SP**  
CTO – Part time

- Application Security full implementation of (S-SDLC, DevSecOps, Threat Modeling, \*AST, etc) from requirements to delivery.
- Evangelize the knowledge and culture about SSDLC with +30 enterprise customers and +5000 of its employees trained employees.
- Technical leadership, my team was composed by 30 people including me in Brazil.

- Direct leader of the Application Security / DevSecOps and Security Architecture team, responsible for evangelizing the feedback culture, KPI development, 1:1 with the team and career development. (Security Champions Program).
- Development and Implementation of Security Champions Programs for clients and a model for courses.

**08/2020 – 07/2021**

**CECyber**

**São Paulo – SP**

Online trainer.

- Content producer, technical material.
- Assisting with exercises, activities, and projects.
- Suggested topics for discussion in the classroom.

**03/2020 – 06/2020**

**UNINOVE**

**São Paulo – SP**

Graduation teacher.

- Plan of lessons with the students.
- Assisting with exercises, activities, and projects.
- Suggested topics for discussion in the classroom.

**04/2016 – 04/2020**

**CVC Corp**

**Santo André – SP**

Application Security Engineer

- Application Security Engineer, full implementation of (S-SDLC, DevSecOps, Threat Modeling, SAST, DAST, IAST, SCA) integrated with Jenkins, Azure DevOps, CircleCI, Gitlab, Github Actions and others.
- Technical leadership, my team was composed by 3 people including me.
- Evangelize knowledge and culture about SSDLC with +20 squads and 250 developers
- Cloud security and SOAR development Security Orchestration Automation and Response.
- WAF - Web Application Firewall implementation, from zero do monitoring.
- SIEM - Design and architecture of all project using ELK stack.

**02/2018 – 09/2019**

**SBTec**

**São Bernardo do Campo – SP**

Graduation teacher.

- Plan of lessons with the students.
- Assisting with exercises, activities, and projects.
- Suggested topics for discussion in the classroom.

**07/2016 – 12/2016 Amazon specialization institute**

**Manaus – AM**

Post-graduation teacher

- Plan of lessons with the students.
- Assisting with exercises, activities, and projects.
- Suggested topics for discussion in the classroom.

**02/2016 – 12/2016 Anhanguera University**

**São Bernardo do Campo – SP**

Graduation teacher.

- Plan of lessons with the students.
- Assisting with exercises, activities, and projects.
- Suggested topics for discussion in the classroom.

**12/2015 – 04/2016**

**BNP Paribas**

**São Paulo – SP**

Software Architect

- Application Security (S-SDLC, DevSecOps, Threat Modeling)

- Architecture and development of Internet Banking.
- Maintenance and improvements on legacy systems.
- Started SDL process with teams.

**07/2015 – 12/2015**                      **Inspira Technology**                      **São Paulo – SP**  
Software Architect

- Application Security (S-SDLC, DevSecOps, Threat Modeling)
- Architecture and development of internal projects.
- Maintenance and improvements on legacy systems.
- Responsible for the company's imaging system.

**04/2014 – 08/2015**                      **Touch Pizza**                      **São Paulo – SP**  
Founder, CIO e CTO

- Application Security (S-SDLC, DevSecOps, Threat Modeling, SAST)
- Directing business on technology, decision making, business alignment and driving the company and project.
- Technical leadership with the development team

**02/2013 – 06/2014**    **Anhanguera University**                      **São Bernardo do Campo – SP**  
Graduation teacher.

- Plan of lessons with the students.
- Assisting with exercises, activities, and projects.
- Suggested topics for discussion in the classroom.

**09/2013 – 03/2014**                      **Serasa Experian**                      **São Paulo – SP**  
Senior Systems Analyst

- Application Security (S-SDLC, SAST, DAST with Veracode platform)
- Architecture and development of internal projects mainly imaging system.
- Maintenance and improvements on legacy systems.

**07/2012 – 09/2013**                      **Capitani IT Solutions**                      **São Paulo – SP**  
Senior Systems Analyst (Consultant) – Allocated on the client: Serasa Experian.

- Architecture and development of internal projects integration SOA.
- Maintenance and improvements on legacy systems.
- Development of components to integrate systems.

**12/2011 – 07/2012**                      **Gommo Agency**                      **São Paulo – SP**  
Software Architect

- Architecture and development of client projects.
- Team leader.
- Development of new projects, preparation of documents, requirements gathering. Etc.

**05/2011 – 12/2011**                      **PSM Company**                      **São Paulo – SP**  
Senior Systems Analyst (Consultant) – Allocated on the client: Mercedes Benz Bank

- Architecture and development of internal projects to the bank.
- Migration of old Technologies to .Net.
- Maintenance and improvements on legacy systems. (BackLog)

**09/2010 – 05-2011**                      **Spread Systems**                      **São Paulo – SP**  
Senior Systems Analyst (Consultant) – Allocated on the client: Brasilprev.

- Architecture and development of internal projects to the bank.
- Maintenance and improvements on legacy systems, resulting in a shorter processing task.
- Development of new projects, preparation of documents, requirements gathering. Etc.

**07/2010 – 09/2010**                      **iThink – Online Driven Agency**                      **São Paulo – SP**  
Senior Systems Analyst

- Architecture and development of portals and hot sites for publicity campaigns.
- Maintenance and improvements on portals resulting in a shorter processing task.
- Development of new projects, SOA integration, and integration with tools of 2.0 Web.

**04/2010 - 07/2010**                      **Garage Interactive Marketing**                      **São Paulo – SP**  
Senior Systems Analyst

- Portal's architecture.
- Maintenance and improvements on portals.
- Development of new projects, SOA integration, and integration with tools of 2.0 Web.

**07/2009 - 04/2010**                      **Mimética Marketing**                      **São Paulo – SP**  
Senior Systems Analyst

- Platform migration (Products Catalog) from ASP 3.0 to ASP.NET.
- Definition of patterns of development and coordinating team.
- Implementation of methodologies.

**09/2008 - 07/2009**                      **World Plus Travel Assurance**                      **São Paulo – SP**  
System Analyst

- Restructuring of IT department.
- Re-evaluation of processes with business areas.
- Development of new projects (e-commerce).

**06/2007 - 09/2008**                      **Logmark Marketing Logistics**                      **Diadema – SP**  
System Analyst

- Structuring IT department.
- Maintenance and improvements on portals resulting in a shorter processing tasks to the customer by streamlining processes.
- Development of new projects, SOA integration and system analysis.

**09/2006 - 01/2007**                      **Prescon Ltda**                      **Santo André – SP**  
Intern developer

- Maintenance of systems.
- Assessment of requirements.
- Version delivery.

### Extracurricular activities

- Cloud Security – AWS Protection
- SOAR - Security Orchestration Automation and Response
- Pentest Training
- FJ-57 Mobile Android Development (Caelum)
- M101N – MongoDB for .Net Developers
- M101JS – MongoDB for Node.js Developers
- M101P – MongoDB for Developers (Python)

- Web Robots and Integration with Social Networks (Competitive Intelligence)
- ASP.Net Security
- Financial Education (BM&F Bovespa).
- Architecture of Applications ASP.Net.
- Integrated Logistics.
- Training ADO. NET (Impacta Tecnologia).
- Training ASP. NET 2005 (Impacta Tecnologia).
- Training C# (Impacta Tecnologia).

In 2020 I started my YouTube channel and also started to produce digital content, I host a podcast called DevSecOps Podcast to discuss topics around Secure Software Development. With all years of experience, I realize that there is a gap between professionals and market demand, so I developed my own Security Champion course, which I sell it online.

I'm also about to release another book called Application Security, Explained (English version to be released soon) and another book called Application Security - Iron Man, Application Security through Iron Man's mind.

I love to share my knowledge and help others to archive points that I did avoiding the problems I had, this way I think everybody wins and grows as society and that's why I decided to be teacher at some universities and now I have my own course and a lot of free content and contribute as speaker and volunteer at some events like Security BSides and much more. And I'm also founder and coordinator of BSides Kraków.
